

RFQ 2FY20 Vendor Question 2

Part III Bid Proposal item 4A titled 'Allowance Work General Site Work' at \$25,000.00

Is this allowance item to include all the work shown on the Civil sheets C-000 through C-507?

If YES, then are we to assume that this work will be completed by others under a separate contract with PSO?

If NO and if we are to include the civil work shown on sheets C-000 through C-507 then under which bid item are we to include the cost of this work?

We are expecting the civil work to be complete and building sites essentially pad ready. However, we understand there is always the potential for a gap in scope of work between civil and the building construction, so we have included a \$25,000 allowance for that purpose. You don't have to quote any of the work on the civil sheets. Those were simply included as a point of reference.
